

Education Committee Survey Analysis

The Education Committee Survey consists of 25 questions that was completed in September 2022. For 23 of the 25 questions, 100% agreed with the statements. The two questions where some disagreed with the statement is that the education committee has opportunities for spiritual development and that the education committee has an annual self-evaluation process that provides feedback on our effectiveness as a group. Both of these can be addressed at upcoming education committee meetings to see if there is a way to improve these areas. Additional comments include being more open about parishioners about finances and sharing how students are doing versus other schools.
