

Thank you to Mrs. Sessions and the Junior Achievement program for this wonderful learning opportunity!

The second grade class had so much fun with Mrs. Sessions leading the Junior Achievement program last week!

Through a week of hands-on learning, students learned about the importance of communities and how each of them can contribute to a community's success. The second graders explored careers, made paper donuts to earn (play) money, paid taxes, and voted to make an important community decision.

# BOUNDLESS FUTURES THROUGH EDUCATION

Junior Achievement of Wisconsin is a nonprofit that inspires and prepares young people for success
