HAPPY EARTH DAY

In celebration of Earth Day employees from Menzner Hardwoods visited our Kindergarten classroom and taught them of the importance of Earth Day. They read a book called "Little Critter: The Green Green Garden" and did an activity called "Garden in a Glove", where they planted bean and pea seeds so the kids can watch them grow. Each student received a copy of the book, an activity packet, and a container garden of their own to take home once the seeds start to grow.

**Thank you,
Menzner Hardwoods**
